### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Winston Hsu on 8/4/2005.

The application has been amended as follows:

In the Specification, paragraph [0001], line 3, after "Wu", insert --now U. S. Patent No. 6,794,292--;

In the Specification, paragraph [0030], line 11, after "surface", insert --, wherein x is 1 or 2--;

In claim 1, line 7, delete "the" then insert --an--;

In claim 3, lines 2-3, delete "or diluted HF/HCl" then insert --diluted HF or diluted HCl--;

2. The following is an examiner's statement of reasons for allowance: As to claims 1-10, the best prior art, Arrington et al. (US 5,009,714) teaches a process for removing copper and copper oxide in a test conducted using an oxidizing agent under an inert nitrogen atmosphere, in which very little copper was dissolved (column 11, lines 9-28 and column 12, lines 5-12), however, Arrington taken alone or in combination fails to provide a motivation for, as well as suggest, teach, or render obvious a wet cleaning method comprising: performing an oxidation step in combination with reducing Cu deposition on a cathode-like copper wiring line by purging an inert gas during oxidation process, along with the rest of the limitations of the said claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
